

Sisters and Brothers,

Much activity has occurred over the last few months with the Railroad National Health and Welfare Plan. In addition to the “Smart Phone” applications that have just been launched to give you better service concerning your Health Care needs, the Plan insurance providers have again teamed up to offer you a new website for all Railroad National Health and Welfare Plan members and their families. The new site, known as the “Railroad Information Depot,” gives you access to all of your health care providers. Whether your health care provider is Aetna, Highmark BC/BS, or United Health Care, or if you’re looking for information on your dental (Aetna), vision (VSP), supplemental sickness (Aetna), or life insurance (MetLife) benefits, this one centralized website offers it all. Access this one site at [www.rrinfodepot.com](http://www.rrinfodepot.com) and go where you want and need to go for all of the latest information on your health care plan - general health care news, information about your specific benefits, and your personal health care accounts. Attached for your review and distribution is a flyer announcing this new website. We will have this flyer posted on the IBEW website shortly.

As with the Smart Phone Applications, this new website is brought to you from the hard work and collaborative efforts of the National Health and Welfare Plan Joint Plan Committee (Labor and Management) in cooperation with all of your Health Care providers. I would recommend that you print this flyer out in “color” and post it at your work locations.

If you have any questions pertaining to the above, please don’t hesitate to contact me.

Fraternally,

Bill Bohné, Jr.

Director – IBEW Railroad Department
